# HUMAN **TOWERS**

### "The most magnificent human construction.

Castells, or human towers, began in the region of Tarragona and were based on Valencian dances. The city of Tarragona has four groups of castellers, and today the city lives and breathes the casteller tower-building spirit and ambience like never before.

When building *castells* everyone has a specific task and position, from the oldest to the youngest. If someone is missing, the tower cannot be built. A great of deal of bravery is involved too.

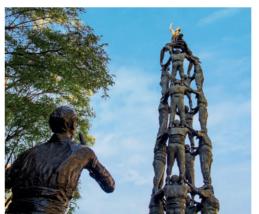

Because this is such a spectacular and completely unique tradition, in 2010 UNESCO declared it to be Intangible Cultural Heritage of Humanity.
